

DIMSUM: DIGITAL INTERACTIVE MRT SCHEDULE UPDATE MANAGER

**OOP & DATA
STRUCTURES**

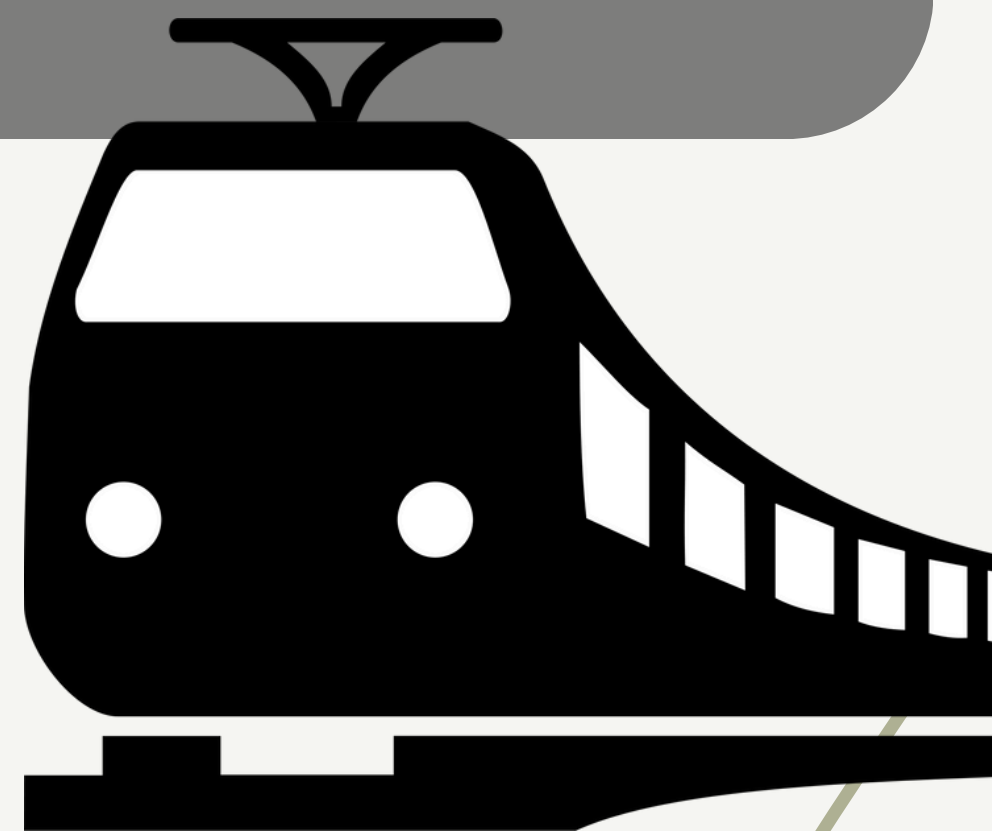

WHAT DID WE MAKE?

HAVE YOU EVER HAD PROBLEMS IN TIMING FOR TRAIN SCHEDULES? WELL WORRY NO LONGER AS WE HAVE MADE A SIMPLE SOLUTION TO THAT, DIMSUM: DIGITAL INTERACTIVE MRT SCHEDULE UPDATE MANAGER.

USERS ARE ABLE TO TRACK ANY STATION THEY WANT WITHOUT WORRYING IN MISINFORMATION OR WRONG TIME ESTIMATIONS. THEY ARE ABLE TO SEE LIVE UPDATES, DELAYS IN TRAINS AND MUCH MORE!

THIS WILL ALLOW FOR BETTER EFFICIENCY OVERALL FOR THE MRT TRANSPORT SYSTEM IN JAKARTA. EVERYTHING WILL BE MUCH SIMPLER AND FASTER!

WHY DID WE DO THIS?

WE MADE THIS APP AS A CONVENIENT AND EFFICIENT TOOL TO HELP DAILY PASSENGERS AND EVEN MANAGERS OF THE SYSTEM. MANY PEOPLE RELY ON MRT TRAINS TO GET TO SCHOOL, WORK, OR OTHER DESTINATIONS. WITHOUT HAVING INFORMATION ON THE TRAIN SCHEDULE, THEY CAN EXPERIENCE LONG WAITS, MISSED TRAINS OR UNNECESSARY DELAYS. WITH THE USE OF A SCHEDULE MANAGER, IT CAN HELP REDUCE OVERCROWDING BY SPREADING OUT PASSENGER FLOW BASED ON TIMING INFORMATION. FOR TOURISTS OR NEW USERS OUR SYSTEM IS VERY USER FRIENDLY AND HELPS EVERYONE **NAVIGATE THROUGH THE MRT VERY EASILY!**
